

## **Consultation with the members of the Public**

1. Interaction with civil society and public already exists - either through the electronic mails or through “feedback”. Commission does receive the view points through both these means.
2. The Civil Society/NGOs’ views are placed before the Convention every year and its recommendations, if any, to be passed on to the Government for appropriate action.
3. Individual Comments are welcome. These issues are examined and are taken up at the Annual Convention if deemed fit.
